

# MyOrgNet Status

07 July 2010

The **MyOrgNet** system has been in use by several non-profit organizations since 2000, and is now being modified for open source distribution. The first open source version will be Rev 7.0, and is expected to be released by the end of June 2010. Besides a little file reorganization and the addition of an installation tool, general changes to the way groups and pools are managed and the way money is stored and displayed will be completed before the first public release since these involve changes to the MySQL tables and data.

All of the work that was originally planned for the next release has been rescheduled to Rev 7.1, and should follow within a few months. These include some fixes to the PayPal refund handling, to Services Equipment, Inventory and Festivals, and the addition of Presenters to events which allows the **MyOrgNet** system to be performer or venue centric as well as presenter centric. Some later changes that quickly integrate into the Rev 7.0 work will be accelerated.

The following tables list the current status of all **MyOrgNet** tools, planned revisions for open source release (Rev 7.0) and planned later revisions.

## MyOrgNet tools for Open Source Release

Tool	Description	Changes	Status
Account Definition	Defines accounts, bank references, tax reporting lines		OK
Activities Definition	Define program activities which relate participants to events and define the associated automatic accounting	Pool changes	Test
Allow	Allow other users access to functions you are allowed to use. Access may be restricted by visibility level, by event, and by type of activity (e.g. Staff, Performers, Volunteers).	None	OK
Articles	Define articles and series of articles for inclusion on the program and public pages.	Open WYSIWYG	Test
Aux Data Type Definition	Defines auxiliary data types for names, addresses, and accounts.	Open WYSIWYG	Test
Ballot Definition	Define ballots, Enter aggregate counts, tally results.	Membership changes	Test
Budget	Defines budgets and reports entered income and expenses by program, event, activity and posting.		OK
Committee Definition	Defines committees and manages committee membership.	Committee changes	
Communicate	Provides email and forum communications for committees.		OK
Current List	Provides list of current members.	Membership changes	Test
Deadwood	Clean database of unused and orphaned records.	Extract	

Deposit	Manage receipts, create and record bank deposits, and track cash on hand.	Money format	Test
Directory	Name lookup for members.	Membership changes	Test
Donations	Manage groups, options and donors.	Separate tool	Test
^		Donation changes	Test
Dump	Export database as flat files		OK
Event Archives	Provide general search of past events.	Group changes	
Event Close	Enter door income and record payments for Events.	Money format	Test
Event Definition	Define events, location, pricing, description, staff, performers, volunteers and anticipated expenses.	Add Presenters	Test
^		Reorganize menu	Test
^		Open WYSIWYG	Test
^		Interest changes	Test
		Calendar actions	Test
Event Lists	Produces lists of event staff, performers, volunteers, and attendees. Provides a general event participant search and email capability.	Group changes	
Feedback	Records system problems and suggestions.	Forward bugs to ceimd.com

^	Update Help	7.1

More information on the **MyOrgNet** tools can be found in the Documentation section of the

**MyOrgNet** home page at <http://MyOrgNet.com> by functional area.

The features can be tried using the **MyOrgNet** Demo at the **Try It** link on the **MyOrgNet** home page.

If you have specific features not apparent in the demo you would like to see included, please email your suggestions to [Webmaster@myorgnet.com](mailto:Webmaster@myorgnet.com)
